

# The Alps just got closer.

This winter, avoid the long and winding mountain roads and get as close as possible to your destination by flying BLADE.

BLADE's accessible fleet includes a complete range of modern, fully-equipped aircraft, including single-engine, twin engine, and executive-class helicopters.

The operators who own, manage, and maintain aircraft in our accessible fleet have been specifically selected based on consistently high safety standards, industry leading equipment maintenance programs, and conservative operating protocols.

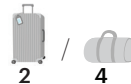

**Bell 429 - Twin Engine**  
**Capacity: 6 Passengers**  
Luggage: 7 medium size suitcases  
Option: Second pilot  
Cruising speed: 250 KM/h  
Endurance: 2h15

## AIRBUS

**H130/EC130 - Single Engine**  
**Capacity: 6 Passengers**  
Luggage: 2 medium size suitcases / 4 soft bags  
Option: ski basket  
Cruising speed: 230 KM/h  
Endurance: 2h30

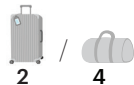

## AIRBUS

**AS355 - Twin Engine**  
**Capacity: 5 Passengers**  
Luggages: 2 medium suitcases / 4 soft bags  
Option: Ski basket / Second pilot  
Cruising speed: 220 KM/h  
Endurance: 2h30

## AIRBUS

**H125 - Single Engine**  
**Capacity: 5/6 Passengers**  
Luggage: 2 medium size suitcases / 4 soft bags  
Option: ski basket  
Cruising speed: 230 KM/h  
Endurance: 2h30

## AIRBUS

**H135 - Twin Engine**  
**Capacity: 5 Passengers**  
Luggages: 2 medium suitcases / 4 soft bags  
Option: Second pilot  
Cruising speed : 287 KM/h  
Endurance : 2h30

## AIRBUS

**DAUPHIN H 155 - Twin Engine**  
**Capacity: 6/8 Passengers**  
Luggage: 8 medium size suitcases  
Option: Second pilot  
Cruising speed: 280 KM/h
